

EDLAWIT TSEGAYE

Software Engineering Student | Full-Stack Developer

Addis Ababa, Ethiopia · edlawitdigital3@gmail.com · [GitHub](#) · [LinkedIn](#): linkedin.com/in/edlawit-tsegaye-teshome-a94474421 · [phone number](#): +251974956616

SUMMARY

Software Engineering student at Adama Science and Technology University and IBT College of Canada Software Development trainee. Built 10+ projects using Java, Python, JavaScript, React, Spring Boot, Next.js and databases, with 100+ coding problems completed. Seeking a Software Developer / Full-Stack Developer internship where I can contribute to reliable, user-centred applications.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, C++, HTML5, CSS3, SQL

Frontend: React, Next.js, Vite, responsive design, component-based UI

Backend: Spring Boot, Node.js, Express, REST APIs, authentication, server-side validation

Databases: MySQL, PostgreSQL, MongoDB, CRUD, SQL queries

Tools: Git / GitHub, VS Code, IntelliJ IDEA, Postman, Docker, Tailwind CSS

PROJECTS

Addis Eats — Restaurant Ordering Web App — 2026

Next.js · React · JavaScript · REST API · Zod · Tailwind CSS

- Built a restaurant menu and ordering application with dynamic dish pages, cart state and checkout flow.
- Implemented API routes, server-side validation and order handling with loading, error and not-found states.
- Applied Next.js rendering strategies including static pages and revalidation for menu content.

Hospital Management System — 2026

Spring Boot · React · MySQL · JWT · Java

- Developed a full-stack hospital management application with patient, staff and administrative workflows.
- Implemented REST APIs, JWT-based authentication and MySQL persistence using Spring Boot.

Calculator Web App — 2025

HTML · CSS · JavaScript

- Built and deployed a responsive calculator application with interactive arithmetic operations.
- Published the project on GitHub and GitHub Pages for public demonstration.

EDUCATION & TRAINING

BSc Software Engineering — Adama Science and Technology University 2024 – Present

Software Engineering studies including programming, data structures, databases and software development.

Software Development — IBT College Canada 2026 – Present

Training in React, Next.js, JavaScript, APIs, Git workflows, testing fundamentals and full-stack development.

CERTIFICATES

Data Analysis Fundamentals — Udacity / Great College Ethiopia · C++ Programming — Programming Hub

ADDITIONAL

100+ coding problems completed · 10+ projects · Interests: Data Structures & Algorithms, Backend Development, Software Architecture

LANGUAGES

English · Amharic
